

TGGGACCATC

A DNA double helix structure corresponding to the sequence TGGGACCATC. The top strand is red (T), orange (G), green (A), blue (C), green (A), red (T), blue (C). The bottom strand is green (A), red (C), blue (G), orange (G), blue (C), orange (G), red (A). The strands are connected by horizontal bars representing base pairs: red-green, orange-red, green-blue, blue-orange, green-blue, red-orange, blue-green.
