

Sequence logo for the 10th position of a motif. The logo displays the relative frequency of nucleotides (G, A, C, G) at each position. The top row of letters (G, G, A, G, A, G, G, A, A, G, G) is larger and more prominent, indicating higher frequency. The bottom row of letters (C, C, A, C, A, C, C, G, A, A, C) is smaller, indicating lower frequency. The colors are: G is orange, A is green, C is blue, and G is orange. The positions are numbered 1 through 10 below the letters.
