

GGCCATAAATCA

The image displays a DNA double helix structure. The top strand is composed of the following nucleotides: G (yellow), G (yellow), C (blue), C (blue), A (green), T (red), A (green), A (green), A (green), T (red), C (blue), A (green). The bottom strand is composed of the following nucleotides: A (green), C (blue), G (yellow), T (red), T (red), A (blue), T (green), T (green), A (red), G (blue), T (blue). The strands are connected by horizontal rungs representing base pairs. The rungs are colored: red, blue, yellow, green, red, blue, green, green, red, blue, green.
